Letter of Interest re: Pier 5 / Charlestown Navy Yard RFP

Dear Executive Director/Secretary Polhemus:

In response to the Boston Redevelopment Authority's (BRA's) Request for Proposals, please accept this letter as our formal expression of interest to be selected as the designated developer for Pier 5 in the Charlestown Navy Yard. Our development entity will be Charlestown Marina, LLC and our proposal is to extend our existing adjacent public Charlestown Marina under the same ownership.

- Charlestown Marina has a twelve-year history of working in the Navy Yard to develop and operate best-in-class public marinas.
- Further information regarding Charlestown Marina and specific recognition and awards can be accessed using the following links:
<https://charlestownmamarina.com/>
<https://www.oceanhavens.com/news>

Our plan is to demolish and remove the existing Pier 5 and extend the existing adjacent Charlestown Marina into a portion of the Pier 5 watersheet, leaving much of it as undeveloped open space. Charlestown Marina will also explore ways that would help facilitate the mission of neighboring Courageous Sailing to ensure their continued operation and success.

The Charlestown Marina team is committed to creating jobs and wealth for minority, women, and veteran-owned businesses and individuals. Approximately 65% of the firms on our team include ownership by minorities, women, and/or veterans. A full listing and organizational chart can be found within this submission.

We're delighted to participate and believe that our redevelopment concept will be the most viable, effective, dynamic, and successful long-term approach for Pier 5 and the broader Charlestown community.

Best regards,

Charles and Ann Lagasse
Charlestown Marina, LLC

- a. Introduction Letter

See above

- b. Proposals should describe the team's experience and qualifications to execute such a proposal within the submitted timeline, development costs and operating budget.

Ocean Havens, the parent company of Charlestown Marina, has over 45 years experience developing, maintaining, and operating marinas. Currently Ocean Havens owns and manages seven marine facilities from Cape Cod to Portland, Maine. Ocean Havens acquired Charlestown Marina in 2014 after it was closed by MassDEP and the Attorney General's office and completely rebuilt the facilities to the best-in-class marina that it is today. Charlestown Marina has won numerous awards, including "Large Marina of the Year Award in the United States" by Marina Dockage Age.

- c. Provide all contact information for team principals, including full addresses, phone numbers and e-mail addresses.

- d. If applicable, explain the relationship(s) between the proponent and any third-party developers, subcontractors, or community partners that might influence the proponent's development plan.

The proponent's plan is completely independent.

- e. The proponent shall provide a listing/description of any lawsuits brought against the proponent or any principals of the proponent in courts situated within the United States within the past five years.

Neither the proponent, Charlestown Marina, LLC, nor any principals have had any lawsuits brought against them in courts situated within the United States within the past five years.

2. Development Concept and Plan:

- a. Describe the proposed development's uses and the total square footage for each use. This should also include how these will satisfy the *Development Objectives, Section 03*.

The proposal to expand the Charlestown Marina to include the watersheet of Pier 5 calls for the complete demolition of the existing Pier 5 and the construction of a new series of publicly available floating docks and wave attenuators that extend off the existing dockage at Pier 6. A total of an estimated 45 public slips with an approximate dimension of 17.5' x 50.0' will allow Charlestown Marina to accommodate more mid-sized vessels. In addition, a total of 720 linear feet of public parallel dockage will allow for a wide and flexible mixture of boat sizes oriented towards short term occupancy. Lastly, a new wave attenuator extending 180' westerly off the existing system at Pier 6 will facilitate additional public dockage. All circulation and utilities will be off Pier 6 with no additional access points envisioned off the Harborwalk.

- b. Describe how the proposed development will benefit the surrounding community; this narrative should include any benefits that are beyond those generated by the development itself

Pier 5 is not viable for any land-based development, with virtually no access from the land side. Our proposal is for a simple marina expansion that meets all Chapter 91 criteria and is financially sound and executable. The primary benefit to the community is to enable the removal of an unsightly and dangerous concrete pier for the benefit of Navy Yard residents and all of Boston. Other than the City's \$8 million contribution, our proposal does not rely on any external or conditional financing or fundraising and can be implemented immediately 100% with our own internal capital. Charlestown Marina is an award-winning organization that values its presence in the community and is highly regarded as a result.

Our demolition plan is to remove the existing pier from the waterside using our property at the East Boston Shipyard as the staging area. Residents of the Navy Yard will be spared the impact of dismantling the pier from the land side.

- c. Estimate the number of construction and permanent jobs that will be generated by the proposed development.

An estimated 20 temporary construction jobs and 5 permanent jobs will be created

- d. Describe how the development plan will be implemented. The description should include a detailed timeline that lists all development tasks from the date of Tentative Designation by the BPDA through construction completion and occupancy; this timeline should also include tasks related to regulatory approvals, see *Design Submission* requirements below, and financial related items.

The timeline should indicate the start and end dates for each pre-development task.

Design	3 months
Permitting	6 months
Construction	12 months

- e. Provide a summary of the plan for the maintenance and operation of the proposed development upon construction completion.

As an extension of the existing Charlestown Marina, Charlestown Marina will maintain and operate the expanded marina situated on the Pier 5 watersheet.

3. Boston Residents Jobs Policy.

Proposals must describe the planned approach to meeting the goals outlined in the Boston Residents Jobs Policy, *Section 06: Contract Terms and Conditions, Additional Terms and Conditions and Appendix A*.

The Charlestown Marina development team is very familiar with the City of Boston's Residents Job Policy consisting of:

- At least 50 % of the total work hours in each trade must go to Boston residents
- At least 25 % of the total employee work hours in each trade must go to people of color, and
- At least 10 % of the total employee work hours in each trade must go to women

It is our intention to surpass the minimum requirements of the Boston's Residents Job Policy and the composition of our team provides a direct connection to tradespeople.

4. Diversity, Equity and Inclusion Plan.

The BPDA is strongly committed to ensuring that the disposition of BPDA properties provide opportunities for diversity, equity and inclusion, wealth-creation, and workforce participation for businesses and individuals who have historically been underrepresented in real estate development. The Diversity, Equity and Inclusion Plan must discuss why it is specific, realistic, executable, and impactful. The Diversity, Equity and Inclusion Plan evaluation criterion shall comprise 25% of the comparative evaluation of each proposal submitted.

- a. Proponents must submit a Diversity, Equity and Inclusion Plan which reflects the extent to which the proponent plans to include significant and impactful economic participation, employment, and management roles by people of color, women, certified Minority-Owned Businesses ("MBEs"), and Women-Owned Business Enterprises ("WBEs") (collectively referred to as "M/WBEs") on this project.

Once awarded the project, Charlestown Marina will formalize development plans and submit a DE&I Plan listing MBE and WBE firms that will be engaged for the development.

b. MBEs and WBEs must have received or have pending applications for certification under the Commonwealth of Massachusetts Supplier Diversity Office or City of Boston. Firms with pending certification may be included in a proposal on the condition that certification is granted by the start of work, or the firm is replaced by a firm certified under the Commonwealth of Massachusetts Supplier Diversity Office or City of Boston. All replacements or substitutions must be approved by the BPDA.

It is our intention to exceed expectations regarding the inclusion of people of color, women, and MBE, WBE, and VBEs.

c. The Diversity, Equity and Inclusion Plan should include the following good faith measures relating to M/WBEs participation:

i. Providing information as to the M/WBE-owned firms participating in the development, the nature of their participation in the particular phase(s) of the development, and the extent to which such M/WBE involvement is committed as of the date of proposal submission. Where possible, proponents should include detailed information on the M/WBE role, responsibility and total contract value in the development.

Please refer to the organizational chart below

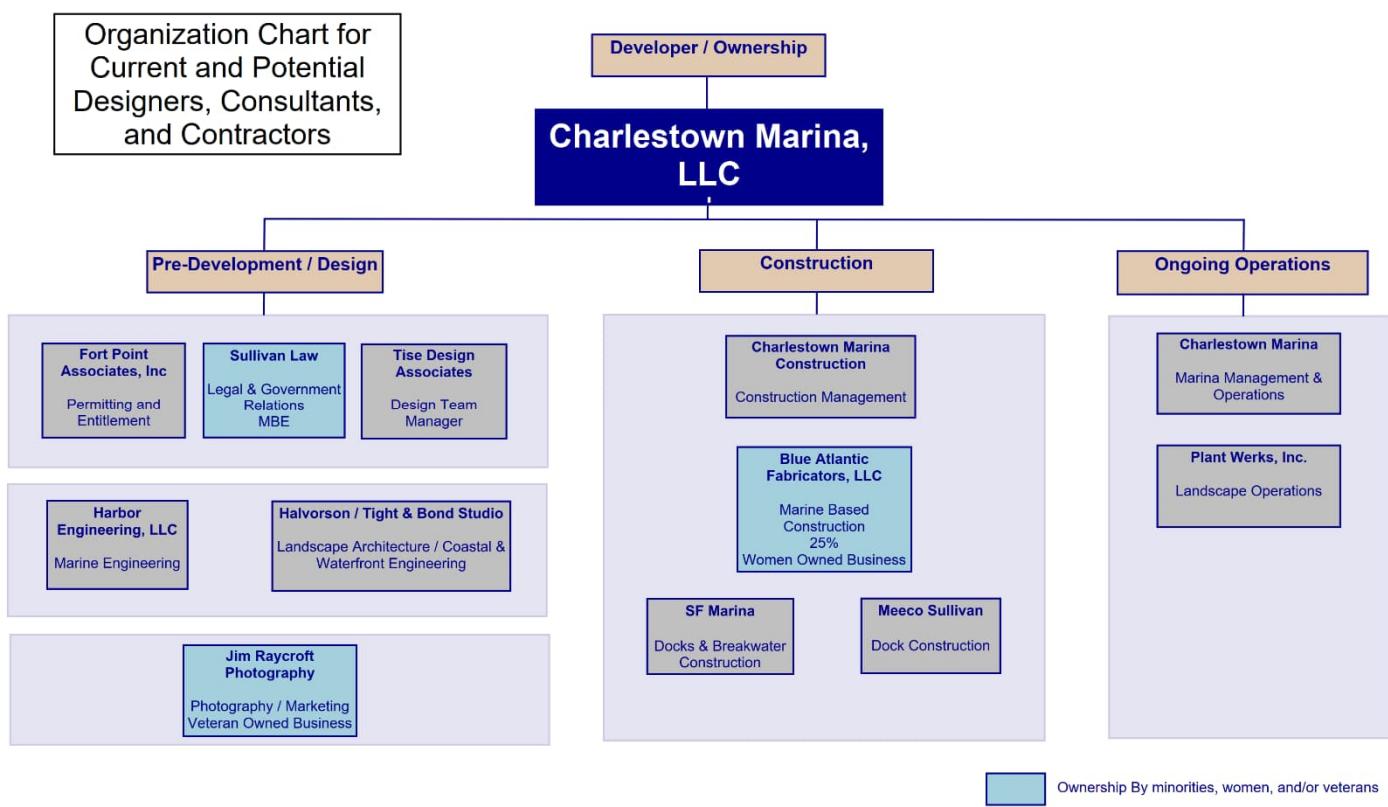

Chart #1

- ii. The proponent's strategy for supplier diversity and M/WBE outreach, including its goals and its good faith efforts. Proposals should indicate what strategies will be pursued, or are being pursued, to identify M/WBE participation, including outreach and identification activities to timely inform the M/WBE community of upcoming opportunities.

We have identified a number of MBE and WBEs that will be included in the design, construction, and management of the proposed marina development and we will continue to seek out qualified M/WBE companies that are suitable and experienced in this type of development.

- iii. Strategies which support sustainable capacity development in M/WBE firms, such as mentor-protégé relationships or joint ventures. These partnerships for capacity development should describe the impact of participating in this project on the M/WBE firm's future business growth and opportunities.

We are committed to helping foster sustainable capacity development and to implementing mentor-protégé programs to provide opportunities for future business growth for M/WBE firms

- iv. The proponent's strategy to support workforce training/capacity building for populations underrepresented in the construction trades as well as other fields of real estate development.

We are committed to assisting in the training and education of underrepresented populations in the construction trades and development fields, and to providing opportunities for future growth for M/WBE firms

- v. A description of the development team's prior experience and track record undertaking similar programs at other locations, including examples deployed on private property.

Charlestown Marina has a long history that is immersed in diversity and inclusion. While operating for nearly 12 years in the Charlestown Navy Yard, Charlestown Marina has embodied a voluntary and continual minority outreach effort, both identifying and hiring Boston residents and minority businesses throughout Charlestown and greater Boston.

Ann and Chuck Lagasse, owners of Charlestown Marina, have reached out to the community in other ways as well, including a partnership with Impossible Dream, which provides free dockage and assistance to the patients of Spaulding Rehabilitation Center, as well as access to a completely accessible vessel. In addition, Charlestown Marina's supports the Bunker Hill Community College Marine Trade program with annual scholarship donations and mentoring programs. In addition, Ann serves as trustee of Boston Harbor Now and the Joslin Diabetes Center and is an advisor to the USS Constitution Museum. Chuck serves on the board for the Center for Coastal Studies.

d. The Diversity, Equity and Inclusion Plan must address all phases of development, including, but not limited to:

- i. pre-development (ex. development entity, ownership, equity and debt investment, design, engineering, legal, other consultants);
- ii. construction (ex. general contractor, sub-contractor, trades, workers performing construction, suppliers, engineering and other professional services); and
- iii. ongoing operations ex. tenants, facilities and property management, contracted services).

Please refer to chart #1 above, which outlines our pre-development, construction, and ongoing operations.

5. Additional Data.

Any other relevant information the proponent believes is essential to the evaluation of the proposal (i.e., aesthetic designs, environmental sustainability goals, ideas for selection of subcontractors, methods of obtaining community engagement, etc.).

Design Narrative

1. A written and graphic description explaining how the proposed design will meet the Development Objectives and Design Guidelines of this RFP. These documents must describe and illustrate all program elements and the organization of the site.

As a marina expansion, our proposal has different objectives than a waterfront structure. As a marina, our proposal clearly aligns with the objectives stated in the RFP, including a desire to enhance waterfront, recreational, and public access, with a specific reference to enhancing sailing, boating, kayaking, etc. Clearly a marina provides appropriate and allowed maritime use, one that celebrates ships and boats in all forms as a traditional waterfront tenancy.

By allowing for a timely and non-contingent removal of the existing derelict Pier 5, we will immediately open up 120' of harbor frontage for the use and enjoyment of Harborwalk visitors. Additionally, as stated in the Development Objectives, views of the harbor and downtown will be dramatically improved by the removal of Pier 5.

2. A description and illustration of all proposed modes of circulation to/from and within the site, including but not limited to pedestrian, bicycle, and emergency access.

There is no change in existing modes of circulation from those currently in use at Pier 6. Access to Pier 6 will remain as it is, with the main Pier open to the community offering the in-place enhancements at the upper Pier's southern end. New boat owners will use the parking facility available at Flagship Wharf. Additional bicycle racks and bicycle storage will be provided as needed. Emergency access is unchanged.

3. A preliminary zoning analysis and an outline of all required regulatory approvals. It should note the current applicable zoning districts, overlays and provisions that govern adaptive re-use of the Property; this outline should include the type of zoning amendments or variances that will be required for the proposed adaptive re-use or indicate if the proposed adaptive re-use can be constructed "as-of-right".

The expanded marina will be in full compliance with all city, state and federal regulatory requirements. No zoning amendments or variances are required.

4. A written and graphic description of how the proposed development will satisfy the Coastal Resilience, Sustainable Development, and Green Building Design guidelines of this RFP that includes:

a. A narrative describing key coastal resilient, sustainable development, and green building strategies.

While many marinas are static structures and not resilient, our proposed marina expansion is a floating structure and, by definition, coastally resilient. The expansion of Charlestown Marina will be designed to allow for major tidal surges and sea level rise. As part of our sustainable strategy, we are committed to sourcing labor and materials locally. All decking materials will match those in place at the recently renovated Pier 6 marina and will meet all recognized forestry standards. Lighting will be LED and dark sky compliant.

b. For occupied building, Preliminary LEED Checklist

NA

c. The team's approach to integrated project design and delivery.

NA

d. For occupied buildings, include a Preliminary Building Performance Model and Carbon Neutral Building Assessment with building performance targets for energy use and carbon emissions

NA

Design Drawings

1. A neighborhood plan as well as a site plan (at appropriate scale to illustrate intent) showing how the proposed design will fit within the immediate and neighborhood context. The purpose of the plans are to illustrate how the project meets the Development Objectives and Design Guidelines set forth in this RFP. Therefore, the neighborhood plan should illustrate the relationship of proposed site design to existing structures, open spaces, Harborwalk lot lines, streets, street names and any other relevant contextual information. The purpose of the site plan is to illustrate the site organization including the Harborwalk, open spaces, structures, vegetation, and other proposed improvements. The plan should communicate proposed topography of all site elements. The neighborhood plan and site plan should coordinate through and be supplemented by the inclusion of renderings, perspective drawings, sections, elevations, and aerial views as appropriate to communicate the proposal.

See attached marina plan.

2. If applicable, schematic floor plans (1/8" = 1'-0" scale) as appropriate showing the basement, ground floor, upper floor(s), and roof, including room dimensions, square footage of rooms, overall dimensions, and the gross square footage of any proposed structures.

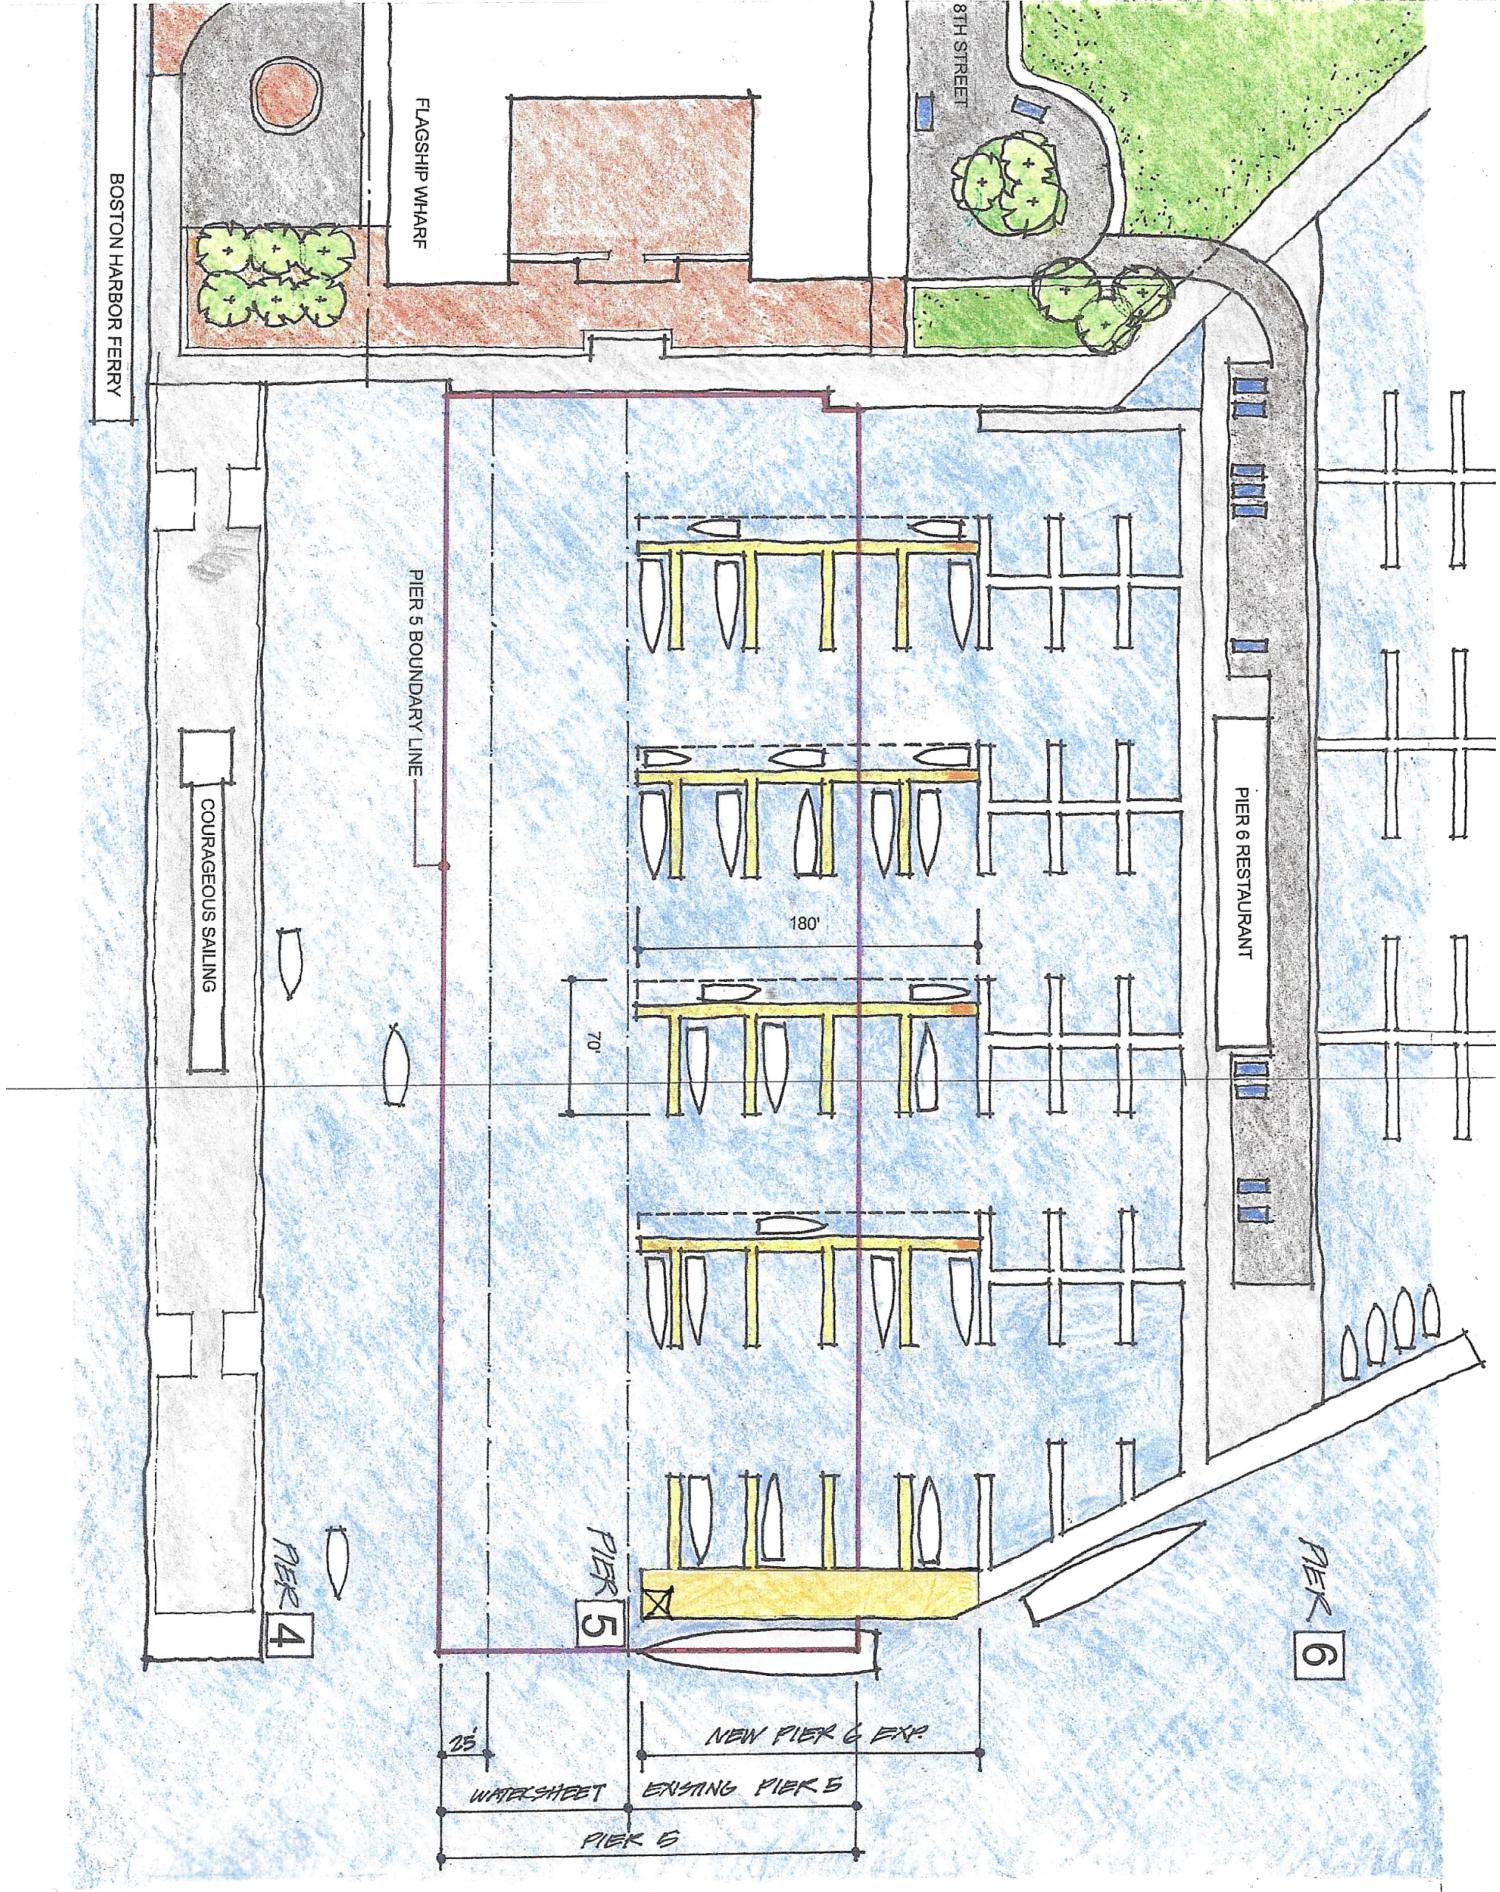

N/A

3. If applicable, structure elevations (1/8" = 1'-0" scale) showing all sides of any proposed structures, architectural details, height and notations of proposed materials.

N/A

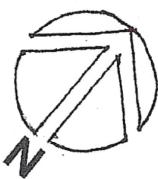

4. Perspective drawings drawn at eye-level and aerial views that show the project in the context of the surrounding area.

4. Financial Narrative: In addition to the pro forma spreadsheets, the Proposal must include a narrative which describes the following:

a. Sources of debt and equity for the total project cost;

The proponent is well capitalized and will utilize internal capital to finance the development.

b. All contingencies, specifying whether for hard costs, soft costs or total costs, design or construction, financing or other critical components of the total project costs;

Total project cost includes a 5% contingency on hard construction costs and 5% on soft costs. Total project cost is estimated to be \$15.29 million, inclusive of \$0.72 million of total project contingency.

c. All assumptions regarding financing terms on acquisitions, pre-development, construction, and permanent loans;

Acquisition cost is assumed to be \$0 because the property is to be ground leased. Such ground lease expense is considered to be an operating cost.

All other project costs are to be financed 100% by ownership (all equity, no bank debt).

d. If applicable, the monetary value of the construction work that a proponent expects the BPDA to complete for rehabilitation or demolition of the pier, not to exceed \$8M.

\$8.00 million.

e. Calculation of total project costs; and

Total project cost is estimated to be \$15.29 million, inclusive of \$0.72 million of total project contingency.

f. Any other project related expenses not included in the above categories.

N/A

5. Ground Lease Price Proposal:

The selected proponent will enter into a 70 year ground lease with the BPDA. The asking rent, based off of opinion of value of the Property, as determined through a valuation done by a professional appraiser licensed by the Commonwealth of Massachusetts, consistent with the Planning Department business model for use of the premises will start at \$315,000 per year. While the BPDA expects a Ground Lease price offer of at least the asking price, a lower price proposal will not be automatically rejected. A proponent offering less than the asking price shall provide with their price proposal a compelling and quantifiable narrative as to the merits and strengths of their proposal, while also setting forth the reasons as to why the proposal cannot meet the asking price threshold.

Charlestown Marina owns and operates multiple marinas in and around Boston and is very familiar with ground leases and operational costs. For a marina to be financially viable, occupancy costs—in this case annual ground rent—should not exceed approximately 5% of gross revenue. Given that we are forecasting \$777,150 of annual gross revenue, this corresponds to a target occupancy cost of \$38,858/year. As another

benchmark, Charlestown Marina ground leases Pier 9, which includes 60 slips, from the City of Boston for \$50,000/year or \$833/slip. Our proposed expansion of the Charlestown Marina includes 45 slips. At \$833/slip/year, an equivalent ground rent would be \$37,500/year.

Notwithstanding the benchmarks noted above, we are proposing annual ground rent of \$47,500 plus a 3% increase at every five year anniversary (i.e.: in year 6, 11, 16, etc.)

We would also request consideration for the ground lease to be extended from 70 to 99 years and also include an option to convert to fee simple ownership, if possible.

6. Using the price proposal form included in Appendix B: Required Forms, clearly outline the financial offer by indicating the amount of the proposal's offer for use of the Property. **This form must be signed by the authorized principal.**

* We are proposing annual ground rent of \$47,500 plus a 3% increase at every five year anniversary (i.e.: in year 6, 11, 16, etc.).

We would also request consideration for the ground lease to be extended from 70 to 99 years and also include an option to convert to fee simple ownership, if possible.

7. Preliminary market study, using empirical market data, demonstrates the feasibility of the proposed sale and/or lease rates of the project.

The best market comparable is our existing adjacent Charlestown Marina at Pier 6. For this proposal, which is an expansion of said marina, we've extrapolated market data to demonstrate the feasibility of the project.

TRANSACTION WITH A PUBLIC AGENCY CONCERNING REAL PROPERTY
M.G.L. c. 7C, s. 38 (formerly M.G.L. c. 7, s. 40J)

filed by the lessor, lessee, seller or purchaser, and in the case of a corporation by a duly authorized officer thereof giving the true names and addresses of all persons who have or will have a direct or indirect beneficial interest in said property with the commissioner of capital asset management and maintenance. The provisions of this section shall not apply to any stockholder of a corporation the stock of which is listed for sale to the general public with the securities and exchange commission, if such stockholder holds less than ten per cent of the outstanding stock entitled to vote at the annual meeting of such corporation. In the case of an agreement to rent property from a public agency where the lessee's interest is held by the organization of unit owners of a leasehold condominium created under chapter one hundred and eighty-three A, and time-shares are created in the leasehold condominium under chapter one hundred and eighty-three B, the provisions of this section shall not apply to an owner of a time-share in the leasehold condominium who (i) acquires the time-share on or after a bona fide arms length transfer of such time-share made after the rental agreement with the public agency is executed and (ii) who holds less than three percent of the votes entitled to vote at the annual meeting of such organization of unit owners. A disclosure statement shall also be made in writing, under penalty of perjury, during the term of a rental agreement in case of any change of interest in such property, as provided for above, within thirty days of such change.

Any official elected to public office in the commonwealth, or any employee of the division of capital asset management and maintenance disclosing beneficial interest in real property pursuant to this section, shall identify his position as part of the disclosure statement. The commissioner shall notify the state ethics commission of such names, and shall make copies of any and all disclosure statements received available to the state ethics commission upon request.

The commissioner shall keep a copy of each disclosure statement received available for public inspection during regular business hours.

(9) This Disclosure Statement is hereby signed under penalties of perjury.

Ann Lagasse and Chuck Lagasse Principals, Charlestown Marina / Ocean Havens LLC

In 2007 Ann and Chuck founded Ocean Havens LLC a real estate company that focuses on acquisition, development and management of distinct waterfront properties, marinas and uplands. The company has created exciting destinations for boating in New England including Boston Yacht Haven Inn & Marina, Charlestown Marina, Fan Pier Marina, Boston Harbor Shipyard & Marina, and Provincetown Marina.

Prior to founding Ocean Havens LLC, Ann and Chuck spent 25 years acquiring, redeveloping and managing buildings and marinas in downtown Newburyport Massachusetts. The company's focus was adaptive reuse of historic buildings and a creative mix of tenants. They received numerous awards for their historic preservation and beautification work. Chuck also founded and ran Plastek Corp. for 30 years, a multi process plastics molding company with 500 employees nationally. The company was public for 10 years, private for 20 years and sold in 2008.

Ann serves as chairwoman of the Board of Trustees at Joslin Diabetes Center and is a board member of Boston Harbor Now. Ann graduated from Regis College and received her M.B.A. degree from Northeastern University. Chuck serves on the board of the Center for Coastal Studies, Provincetown, MA. He has a degree in engineering from University of Lowell.

Working with Spaulding Rehabilitation Hospital, Ann & Chuck host the Impossible Dream Sailboat at the Charlestown Marina. The Impossible Dream is a sailing program focused on improving the lives of participants living with disabilities through sailing.
